

**Johanna** leads Arup's Education Business across Australia, offering a wealth of experience and insights, regularly engaging with key universities across the region and being connected to Arup's wider global network. On behalf of Arup, Johanna has been leading the development of the TEFMA Benchmark and Insights publication for the last three years.

Johanna is a well-versed project leader, regularly managing multi-disciplinary teams and collaborating with a diverse range of stakeholders. Her background in architecture and engineering results in a consolidated project approach, balancing design and technical solutions.
