

Mark Gregory is Vice President (Corporate) and Chief Operating Officer of Flinders University. The portfolio he leads is comprised of great people working on Sustainability, Buildings & Property, Finance, Information Technology, College business operations, People & Culture, Student Accommodation, the University Library and other teams.

Mark drives large capital construction and commercial real estate efforts, as well as leading the University's physical, operational and technology planning. Mark leads Flinders' sustainability activities and is fast-tracking adoption of new technologies supporting the transition to a net-zero emissions profile. Efforts include 100% renewable electricity, a growing fleet of Electrical Vehicles, and vehicle-to-grid trials.
